SCHEDULE

Optional Workshops – Saturday, September 20, 2025

Morning Session

All times are Eastern Daylight Time (EDT)

Workshops are not recorded, and each workshop is limited to 30 people.

There is an additional cost for workshops. You may choose to attend one workshop in the morning and/or one in the afternoon.

Michael Ramage, JD, CG®

Catherine Desmarais,
CG®

Saturday, September 20, 2025 10:30 a.m.–1 p.m. EDT

Practical Tools for Your Forensic Genealogy Practice - Part 1

This hands-on workshop is designed for genealogists who conduct research for attorneys, particularly in probate, real estate, and other legal matters. Whether you're launching or refining your forensic genealogy business, this session will provide practical tools to support your work in legal contexts. In the morning, instructors will walk participants through setting up efficient workflows, developing clear client contracts, improving communication practices, and minimizing liability. Sample documents will be provided, and attendees will have time to collaborate in small groups to begin customizing them for their own practices.

Participants may register for morning and afternoon sessions separately, or for the full-day workshop.

Bios

Michael Ramage is co-author of *Forensic Genealogy: Theory and Practice*, as well as a full-time, board-certified genealogist with more than 20 years' experience. His legal background includes family, adoption, business, real estate and estate law. He specializes in missing and unknown heirs in trusts and estates, and real estate in the mid-Atlantic region.

Catherine Desmarais is co-author of *Forensic Genealogy: Theory and Practice*, former APG vice president, and she specializes in forensic genealogy to resolve military repatriation, estate, and realty cases. As a US Department of Defense qualified genealogist, she and her research team have located families for more than twelve hundred World War II and Korean War soldiers.

SCHEDULE

Optional Workshops – Saturday, September 20, 2025

Morning Session

All times are Eastern Daylight Time (EDT)

Workshops are not recorded, and each workshop is limited to 30 people.

There is an additional cost for workshops. You may choose to attend one workshop in the morning and/or one in the afternoon.

Rhonda Lauritzen, MBA

Saturday, September 20, 2025 10:30 a.m.–1 p.m. EDT

Organizing Big Projects

Being well-organized around big projects is essential for success as your business expands.

In this workshop, I will share my actual templates and will give students time to do exercises to assess their processes, brainstorm areas for improvement, and benchmark best practices with other attendees. These templates are used to manage my business today and have a proven track record, including adoption by other historic preservation professionals who have collaborated with me on multiple projects.

In the workshop, we will cover landing the client (the proposal, the "not to exceed" estimate, the calendar to completion, the signed agreement); onboarding the client (onboarding checklist, timekeeping log, and digital folder structure for tracking individual pieces of the project); and the research and writing phase (templates, use of AI and specific programs to manage the process and improve productivity).

Bio

Rhonda Lauritzen is the founder of Evalogue Life and a professional biographer with multiple published books. She has an MBA from the University of Utah. Her two most recent books were traditionally published in late 2024: *A Child in Berlin* by Post Hill Press and *Creative Insecurity: Lean Into the Unknown and Unleash Your Inner Misfit* by Simon & Schuster. She believes that when you tell your story, it changes the ending.

SCHEDULE

Optional Workshops – Saturday, September 20, 2025

Afternoon Session

All times are Eastern Daylight Time (EDT)

Workshops are not recorded, and each workshop is limited to 30 people.

There is an additional cost for workshops. You may choose to attend one workshop in the morning and/or one in the afternoon.

Linda M. Hunter, M.S.,
PLCGS

Kelvin Meyers, FTxSGS

Saturday, September 20, 2025 2–4:30 p.m. EDT

Practical Tools for Your Forensic Genealogy Practice – Part 2

In the afternoon, the focus shifts to affidavit writing. Using provided case examples, participants will draft partial affidavits with guidance from instructors. The session includes examples of challenging scenarios and small group exercises to practice real-world problem-solving in forensic genealogy.

Participants may register for morning and afternoon sessions separately, or for the full-day workshop.

Bios

Linda M. Hunter, MS, PLCGS, has been researching for over twenty-five years, primarily in the Mid-Atlantic Region. Growing up in northwest Pennsylvania, she served as a Naval Officer for 28 years, living in and deploying to six different countries and five US states. Upon her retirement from the U.S. Navy in 2015, Linda turned her passions for family history and tackling tough analytic problems into a genealogical career. She focuses on forensic genealogical endeavors, primarily locating missing and unknown heirs for attorneys. She holds a Bachelor's Degree in History from the University of Maryland, Baltimore County, and Master's degrees in Applied Mathematics and Systems Technology (Space Operations) from the Naval Postgraduate School.

A fifth generation Texan and professional forensic genealogist since 1996, Kelvin Meyers is a well-known speaker and author. Kelvin specializes in heir location and mineral rights cases. He is the author of the mineral rights chapter of *Forensic Genealogy Theory and Practice*, and a fellow of the Texas State Genealogical Society.

SCHEDULE

Optional Workshops – Saturday, September 20, 2025

Afternoon Session

All times are Eastern Daylight Time (EDT)

Workshops are not recorded, and each workshop is limited to 30 people.

There is an additional cost for workshops. You may choose to attend one workshop in the morning and/or one in the afternoon.

Cathie Sherwood, M.Ed.

Saturday, September 20, 2025 3–5:30 p.m. EDT

Design Smarter: Reimagining Reports, Courses and Presentations

This practical, hands-on workshop helps genealogists transform reports, course materials, and presentations from functional to fantastic. No graphic design skills or expensive software required.

Bio

Cathie Sherwood is the founder of Family History Academy, providing online courses and resources to support family historians at all levels. She is a highly regarded family historian, educator, and international speaker with over four decades of expertise in tracing Irish, English, and Scottish ancestry. She holds a Master's Degree in Education and a Diploma in Family Historical Studies.

[Elevating Evidence: Simple Design Strategies for More Polished Work](#)

Thoughtful genealogical research deserves thoughtful presentation. This session will demonstrate how simple design choices and principles can help organize complex information, highlight reasoning, and create hierarchy leading to more polished reports, websites, and presentations. We'll discuss font legibility and selection, basic layout principles, color schemes, and tools that help show off your reasonably exhaustive research. Whether you're preparing a client report or sharing research with colleagues, simple, thoughtful design choices can help your work shine.

Bio

Kelley Conner Lear is a Certified Genealogist® specializing in research in her home state of West Virginia, as well as Virginia, Central Appalachia, and the Allegheny Highlands. Kelley currently serves on the Board of the Virginia Genealogical Society. She also chairs the APG Professional Development Committee and sits on the Board of the Association of Professional Genealogists (APG). An alumna of ProGen 52 and ProGen Practicum 2, she now mentors ProGen 69.

Setting Pricing: Let's Talk Money

Achieve viability and freedom by optimizing your pricing strategy. This workshop is one part tough love, one part strategic pep talk, and one part practical data. I have been collecting data for years from official and unofficial sources on what people are charging. We will explore genealogy services and related industries such as those for writers, editors, and historic preservation professionals. We will walk through rates for various levels of experience, and how much you need to add for overhead. In addition, we will address the practical question of how many hours per day, week, month, and year you can realistically bill.

Bio

Rhonda Lauritzen is the founder of Evalogue Life and a professional biographer with multiple published books. She has an MBA from the University of Utah. Her two most recent books were traditionally published in late 2024: *A Child in Berlin* by Post Hill Press and *Creative Insecurity: Lean Into the Unknown and Unleash Your Inner Misfit* by Simon & Schuster. J. Mark Lowe, FUGA

Thursday, September 18, 2025 2:15–3:15 p.m. EDT

Bringing the Past to Life: Storytelling Skills for Genealogy and History

Genealogy is more than a collection of names, dates, and documents; it's the story of lives once lived. Yet too often, the richness of those lives is lost in dry lists and technical reports. This session is designed to help genealogists and history enthusiasts alike transform their research into compelling, emotionally resonant stories that connect with readers and listeners on a human level.

Whether you're writing a family history, preparing a presentation, or simply sharing discoveries with relatives, storytelling is the key to making your work meaningful and memorable. This session will introduce both the art and craft of storytelling, tailored specifically for those working with genealogical and historical material.

Bio

J. Mark Lowe, FUGA, is a semi-retired professional genealogist, author, and teacher who researches primarily in original records and manuscripts throughout the South. He serves as the Course Coordinator for "Research in the South" at IGHR (Georgia), SLIG (Utah), and TIGR (Texas); he is a former president of APG, a Fellow of the Utah Genealogical Association, and was awarded the APG Grahame T. Smallwood Jr. Award, as well as an APG Lifetime Membership.

Professional Genealogy Credentials: A Panel Discussion

Earning a genealogical credential is a goal of many professional genealogists. Those investigating which credential to pursue often have questions and benefit from talking to those who are credentialed. The four panelists together hold six different types of credentials. They will each share their educational preparation, reason for seeking a credential (or several), their personal journey, and tips for others working to earn credentials.

Topics covered:

- The benefits of being credentialed
- The application process for each credentialing body
- The skills tested, such as research, analysis, reporting, and writing
- Educational preparation
- Addressing questions from the audience

This session will detail the two main credentialing boards, the International Commission for the Accreditation of Professional Genealogists (ICAPGen) and the Board for Certification of Genealogists (BCG), and also cover credentials outside the United States and the new Investigative Genetic Genealogy Accreditation Board (IGGAB).

COURSE DETAILS AND INSTRUCTOR BIOS

(in order of presenters)

Thursday, September 18, 2025 3:30–4:30 p.m. EDT

Professional Genealogy Credentials: A Panel Discussion, *continued*

Many genealogy credentials will be discussed, including:

- Certified Genealogist (CG)
- Certified Genealogical Lecturer (CGL)
- Certified Genetic Genealogist (CGG)
- Accredited Genealogist (AG)
- Accredited Genealogical Lecturer (AGL)
- Qualified Genealogist (QG)
- Accredited Investigative Genetic Genealogist (AIGG)
- Professional Learning Certificate in Genealogical Studies (PLCGS)
- Accredited Genealogist Ireland (AGI)

Credentials

- Angela Packer McGhie, CG[®], is passionate about genealogy education and serves as the vice president of the Board for Certification of Genealogists.
- Shannon Green, CG[®], CGGSM, CGLSM, is a board-certified genealogist, researcher, and writer. Shannon serves as a trustee for the Board for Certification of Genealogists.
- Jenny Hansen, AG[®], AGLSM, holds a bachelor's degree in Family History and Genealogy. Jenny currently serves as a commissioner for ICAPGen and is the director of SLIG.
- Francine Crowley Griffis, CG[®], AG[®], QG, is a pending Master's graduate and provisional Doctoral Candidate at the University of Strathclyde, Glasgow.

Borrowed Brilliance: Adapting Smart Practices from Beyond Genealogy

What do coaching, financial services, journalism, and digital design have in common with professional genealogy? More than you might think. In this forward-thinking session, we'll explore the smart, proven business models and client-experience strategies; the brilliance developed in other professions; and how they can be adapted to strengthen your genealogy practice and reimagine how you work.

You'll discover how coaching frameworks like VIP Days can be reimaged to offer high-value, immersive genealogy services; how client relationship strategies from financial planning can help build loyalty and repeat business; and how design principles from UX/UI can make your reports and presentations more engaging and easier to navigate.

Rather than reinventing the wheel, professional genealogists can borrow what works and then tailor it to the unique demands of our field. This session offers a practical roadmap filled with real-world examples, tools, and ideas to help you work more efficiently, serve clients more thoughtfully, and build a resilient, future-ready practice.

Bio

Cathie is the founder of Family History Academy, providing online courses and resources to support family historians at all levels. Panel Discussion: Professional Genealogy in the Age of AI— Guidelines and Challenges

This panel will examine how AI impacts professional genealogy with a focus on accuracy, disclosure, privacy, education, and compliance to ensure ethical and effective research practices.

From machine learning tools that analyze historical records to AI-powered platforms that suggest familial connections, the opportunities for enhanced efficiency and discovery are expanding. However, with these advancements come ethical responsibilities and challenges. How do professionals ensure the accuracy of AI-generated data? When and how should they disclose the role of AI in their work? What are the implications for privacy, especially when dealing with sensitive family histories or genetic information?

This discussion will focus on the five core principles that must guide professional genealogists as they engage with AI technologies. Attendees will gain a deeper understanding of how AI is reshaping the professional genealogy landscape, what risks and rewards it presents, and how to navigate these changes with integrity and competence.

Bios

Lynn Broderick, also known as the Single Leaf, is a writer by birth, a teacher by profession, and a researcher by passion. She continues to host the first-ever NGSQ/Record Study Group. She enjoys researching individuals of the past in the context of family, community, and social history. She champions genealogy ethics and standards in the community.

Steve Little, AI Program Director for the National Genealogical Society, founder of AI Genealogy Insights, and cohost of The Family History AI Show, is a leader in integrating AI and genealogy. With graduate training in computational linguistics and natural language processing and a previous career building information systems for libraries and archives, his work now focuses on endogamy, pedigree collapse, and AI's applications and limits in genealogy.

Angela Packer McGhie, CG®, is a professional researcher, lecturer, and instructor. She is the Vice President of the Board for Certification of Genealogists. She enjoys coordinating and teaching courses at the Institute of Genealogy and Historical Research, the Salt Lake Institute of Genealogy, and the Genealogical Institute on Federal Records.
